

COMMON CORE REPORT CARD

SEVENTH GRADE CONDENSED

This report card is a carefully constructed document based solely on the content and elements found in the Common Core State Standards (CCSS) for this specific grade level. It is not simply a list of the CCSS with a grading column. The content found on this report card align with the CCSS but have been carefully rethought and reworded so that it is parent-friendly. Some standards have been removed from the report card as they are not appropriate for reporting to parents.

This report card includes both Language Arts, Mathematics, Science, and Social Science. Other portions of the report card are generic.

Review this report card and make changes as desired. When you have your final version of your report cards, email it to us and we will include it in your customized version of Report Card Maker for your teachers to use.
